

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN DIEGO REGION

ORDER NO. 84-07

AN ORDER DELETING THE EXPIRATION DATE
FROM ORDER NOS. 79-17, 79-23, 79-24, 79-27,
79-35, 79-68, 79-69, 79-76, AND 79-77

WHEREAS, This Regional Board has issued state waste discharge requirements to the following dischargers: (a) Ramona Municipal Water District, San Diego County Estates (Order No. 79-17); (b) San Marcos County Water District (Order No. 79-23); (c) Metropolitan Water District, Skinner Filtration Sludge Disposal Site (Order No. 79-24); (d) Coast Sand Company, Inc. (Order No. 79-27); (e) Leucadia County Water District (Order No. 79-35); (f) H.G. Fenton Pre-Mix Concrete Company, Escondido Plant (Order No. 79-68); (g) H.G. Fenton Materials Company, Pala Plant (Order No. 79-69); (h) County of San Diego, Buena Sanitation District (Order No. 79-76); (i) County of San Diego, Fairbanks Ranch Sanitation District (Order No. 79-77).

WHEREAS, In 1978 this Regional Board began a policy of including in each adopted order of state waste discharge requirements an expiration date of no more than five years from the date of adoption. Staff intended the establishment of an expiration date for state waste discharge requirements as a practical means of ensuring periodic review of a discharger's requirements.

WHEREAS, California Water Code, Section 13263(e), Article 4, Chapter 4, Division 7, provides that requirements may be reviewed and revised at the request of an affected person, or the Board's own motion, and that requirements must be reviewed periodically. The Water Code, however, does not provide for the establishment of a specific term for state waste discharge requirements.

WHEREAS, The regulations of the State Water Resources Control Board implementing the Water Code, Subchapter 9, Chapter 3, Title 23, of the California Administrative Code specify that all state waste discharge requirements be reviewed at least once every five years.

WHEREAS, The Regional Board staff periodically reviews all requirements and requests a new Report of Waste Discharge whenever any material change in the character, location, or volume of the discharge is proposed.

WHEREAS, The Regional Board has notified the dischargers and all known interested parties of the proposed action to delete the expiration dates of the Orders named in the first paragraph of this Order.

WHEREAS, The Regional Board, in a public meeting, heard and considered all comments pertaining to the proposed action.

WHEREAS, This Order results in the nature of no alternation to the dischargers' existing facilities, and as such is exempt from the provisions of the California Environmental Quality Control Act (Public Resources Code, Section 21000 et seq.) in accordance with Section 15301, Chapter 3, Title 14, California Administrative Code.

THEREFORE, BE IT RESOLVED, That the expiration dates of the state waste discharge requirements for the following dischargers shall be deleted:

Order No.	Discharger	Expiration Date
79-17	Ramona Municipal Water District - San Diego Country Estates	2/26/84
79-23	San Marcos County Water District	3/26/84
79-24	Metropolitan Water District, Skinner Filtration Sludge Disposal Site	3/26/84
79-27	Coast Sand Company, Inc., near Rancho Santa Fe	4/23/84
79-35	Leucadia County Water District, Water Reclamation Project	5/21/84
79-68	H.G. Fenton Pre-Mix Concrete Company, Escondido Plant	10/22/84
79-69	H.G. Fenton Materials Company, Pala Plant	10/22/84
79-76	County of San Diego, Buena Sanitation District	11/26/84
79-77	County of San Diego, Fairbanks Ranch Sanitation District	11/26/84

I, Ladin H. Delaney, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Diego Region, on January 23, 1984.

Ladin H. Delaney
Executive Officer
